Hard Wearing Plates (Bennex)

SS10/200 (Bennox)

This is a high carbon, rolled, low cost wear resistant steel. This type of steel should be selected for applications where higher mechanical strengths are required.

Due to the good wear resistance obtained through heat treatment, its suitable for farm implements such as plough beams, plough shares, scraper blades, discs, mower knives and harrow teeth.

Material is supplied with analyses certificates.

Weights per sheet

Dimensions mm	6.0 mm	8.0 mm	10 mm	12 mm	16 mm	20 mm
2 500 x 1 200	142	188.4	235.5	282.6	376.8	471.0
4 000 x 2 000	376.8	502.4	628.0	753.6	1 004.8	1 256.0
